

## Sprint 4 Report

**Product Name:** BananaStocks

**Team Name:** Stocks Team

**Date:** June 1st, 2021

### Actions to stop doing

Overall, we were a very good team this sprint. We got all the tasks and user stories we set out to complete. There are no specific actions that we should stop doing.

### Actions to start doing

Our meeting times are still a bit chaotic. While we've still held all of our meetings, they sometimes vary in time due to the nature of our school workloads constantly changing.

### Actions to keep doing

Our communication was much better this sprint since most of the work had to do with connecting everyone's individual work into a cohesive project. If we continue this kind of communication, it will make collaborating in the future much easier.

We were much more efficient in merging PR's this week. We should continue to do that to always stay up to date with everyone's work.

### Work completed/not completed

User Stories Completed

As a user, I should be able to see sentiment news for a stock.
As a user, I should be able to click on news articles relating to the stock.
As a user, I should be able to easily view my projects and change time frames.
As a user, I should be able to change account settings and reset my password.

User Stories Not Completed

None

### Work completion rate
